The Executive will meet at 6:00 PM before the general meeting.

Next meeting Tuesday, October 1, 2024

Mary Jane Duford

Tue, Oct 15,
10:46 AM

to me, Glenn

Dear Garden Club,

I hope this message finds you well! I'm excited to share some wonderful news—Armstrong Elementary School will be building a school garden! This new space will provide students with hands-on learning opportunities about gardening, nature, and sustainability, fostering a love for the natural world.

We truly value the connection between our school and the Armstrong community, including the incredible work you do through the Armstrong Garden Club. As such, we wanted to inform you about this project as it is in its initial phases.

This idea came from two brick school teachers and construction will be coordinated by the Parent Advisory Committee in cooperation with a teacher representative and the school Principal. The School District Grounds Department has given their approval, with fundraising, pre-assembly, and installation to follow (with on-site installation scheduled for next spring).

We'll keep you in the loop throughout the planning and construction phases, and we would love to share updates along the way. Your input, knowledge, and passion for gardening are invaluable to our community, and we hope you'll be as excited about this initiative as we are!

Thank you for your ongoing efforts to promote gardening in Armstrong, and we look forward to keeping the club updated as the school project progresses. Please don't hesitate to reach out if you have any questions or ideas to share.

Best regards,

Mary Jane Duford
